NEXTIDA™ GC

A NEW GENERATION OF COLLAGEN PEPTIDES FOR GLUCOSE CONTROL

Support healthy post-meal glucose levels with scientifically backed bioactive collagen.

Nextida™ GC is a unique, bioactive collagen peptide specifically developed by Rousselot® to help maintain post-prandial glucose homeostasis. It is a food-grade ingredient derived from porcine collagen, backed by rigorous clinical and pre-clinical research.

KEY BENEFITS

- **Clinically proven** to help maintain **healthy blood glucose levels** after meals.
- Contributes to **better glucose homeostasis without impacting insulin levels.**
- Suitable for a wide range of functional nutrition and dietary supplement applications.
- Heat-stable, neutral in taste and odor - **ideal for seamless formulation.**
- Recognized as a **food ingredient under EU Regulation 2015/2283** - not classified as novel food.

SCIENTIFIC BACKING

A randomized, double-blind, placebo-controlled clinical study (2024) showed that a 5 g dose of Nextida™ GC significantly reduced post-prandial glycemia compared to placebo. These results confirm the role of Nextida™ GC in supporting healthy glucose metabolism and satiety management.
