

PACKAGING GUIDE

PACKAGING GUIDE[®]

A simple overview of how we handle packaging, from available formats to technical requirements.

Welcome to the GreenPharm Packaging Guide.

This document provides a clear and **practical overview of our packaging solutions across all product categories**. Whether you are preparing capsules, powders, gummies, or single-serve sachets, **this guide helps you quickly choose the right format, understand available options**, and move efficiently toward production.

HOW PACKAGING WORKS[®] IN 30 SECONDS

Packaging Options at a Glance

Explore our available packaging formats and **find the right fit for your product.**

This overview provides practical information on available packaging types, sizes and approximate product capacities, together with recommended label dimensions. From PET packers and jars to doypacks, stickers and other packaging solutions, **you can quickly compare the options available for your supplement.**

Please note that product capacity may vary depending on capsule size, tablet dimensions, powder density and individual product characteristics.
