

GREENPHARM

PRIVATE LABEL SUPPLEMENTS TAILORED TO YOUR BUSINESS

EST. 2016

GreenPharm was founded as a private label nutrition company in 2016 to support our **family business** in the health and beauty industry. We have **25 years of experience** in selling medical devices for home care. In 2014, we started to offer collagen supplements together with these devices and we had excellent feedback.

GreenPharm has begun to produce these products and thanks to the high quality of collagen, we have acquired new partners from across Europe. In the following years, we have added the manufacturing of capsules and tablets to our portfolio and, currently, **we can offer a variety of dietary supplements.**

OUR PRODUCTION

Contract manufacturing provides a range of benefits, including a full-service approach, a professional image, the ability to create tailor-made products, cost savings, and access to expert advice. These advantages make contract manufacturing an attractive option for companies looking to optimize their manufacturing processes and focus on core business activities.

Tailor-made supplements

Lower costs

Expert advice

Full service

Private labeling offers a range of advantages, from agility in responding to market trends to cost-effectiveness for startups and faster delivery times. These benefits make private labeling a strategic option for companies looking to establish themselves in the market efficiently.

LET'S WORK TOGETHER

At **GreenPharm**, we collaborate with ambitious brands seeking a trusted and experienced private label partner in the nutraceutical industry. We provide end-to-end solutions covering formulation, sourcing, manufacturing, quality control, and delivery — all aligned with strict regulatory standards and market expectations.

Our approach is built on long-term partnership. We work closely with our clients to understand their objectives and deliver tailored solutions that support sustainable growth and brand credibility. GreenPharm s.r.o. supports **high-quality supplement concepts from idea to market.**
